HOW TO READ THIS

CONFIGURATOR COLOUR

For recognition and visualisation only — not the final textile colour. Final colour is approved from physical samples.

PRICE GROUP

For quotation and budget. Final textile, colour and supplier are specified in the quote before order.

COM / SPECIAL

Customer's Own Material and special textiles require approval before order.

See the following pages for composition, Martindale and producer data.

HOW TO USE THIS GUIDE

A specification tool.

The guide is built around price groups because the configurator and quote flow use price groups for budget and visualisation. Producer lines keep the programme scalable as more suppliers are added.

PRICE GROUP	Used for quotation and budget. It does not replace final textile specification.
PRODUCER LINES	Kvadrat, JAB, Sørensen Leather and COM are kept separate so the guide stays easy to scan.
CONFIGURATOR COLOUR	One colour per group mirrors the selector. It is for recognition, not final textile colour.
TECHNICAL DATA	Composition and Martindale are shown as a quick guide. Use producer data for cleaning, lightfastness and pilling.
SUPPLIER DATA	Open producer data sheets for full, updated specifications before final order.
COM / SPECIAL	Customer's own material and special textiles require approval before order.

MARTINDALE REFERENCE

15,000–25,000 domestic / light use · 25,000–45,000 public spaces · 45,000+ heavy contract. Always verify against project requirements, cleaning routines and fire classification.

Final specification check.

This guide is a working document. It aligns price groups with the configurator colour logic, but it does not replace final producer data sheets, physical samples or project-specific approval.

CONFIRM PRICE GROUP	Quote, configurator and guide use the same group.
CONFIRM PRODUCER	Verify Kvadrat, JAB, Sørensen Leather or COM selection.
CONFIRM TEXTILE DATA	Cleaning, fire requirements, colour fastness and pilling on the producer data sheet.
CONFIRM FINAL COLOUR	Configurator colour is not the textile colour. Approve from physical samples.
COM / SPECIAL	Customer's own material requires approval before order.

Open items · confirm exact naming of Matte vs Matteo, and verify latest supplier specifications for Nalia and Safire 2.
